

**STUDY MBBS IN ARMENIA  
LOW TUITION FEES**

# ABOUT ARMENIA

Located in the Southern Region of the Caucasus in Eurasia, the Republic of Armenia is a mountainous country. Yerevan is the capital and largest city of the country. The official language of the country is Armenian, which is widely spoken by most natives of the country.

## HISTORY

The first kingdom of Armenia was established in the 6th century BC. It was also one of the first Christian nations of the world. In the coast of the Mediterranean Sea, there lay a region called 'Cilician Armenia', during the 11th to 14th century.

During the early years of the 19th century, the homeland of the Armenians was divided by the Russian Czars and the Ottoman Turks.

It got independence from the Czar and the Turks in 1918. However, that was followed by Soviet rule till 1991, when the country got its true independence.

## WHY STUDY MBBS IN ARMENIA

There are numerous benefits of studying MBBS in Armenia, some of which are enlisted above.

01

The MBBS course in Armenia is extremely affordable for people who failed to get through MBBS in Indian public universities, since Indian private universities are very expensive.

## MESSAGE FROM RECTOR

UTMA got accredited by the State in the Year 2001. It is also recognised by important medical organisations such as the World Health Organisation and the Medical Council of India.

On behalf of the Rector Board of University of Traditional Medicine of Armenia (UTMA) , I would like to thank you for your interest in and support for UTMA, and warmly welcome you all to the first public international university of excellence in Armenia.

With the ambition to provide high quality medical education and become an excellent medical research oriented institution in Armenia, UTMA is committed to academic and research excellence students, satisfaction and among Top 200 universities in the world by 2030.

UTMA is proud to adopt the European education system, and to have a contingent of high quality professors and lectures from Armenia and other countries as well. We provide an innovative learning environment with a wide access to practical works and internship in country and abroad for students in modern and well-equipped labs and joint labs.

UTMA is also grateful for the valuable support from the Governments of Armenia, the Ministry of Education , education and research partners, and all who are helping us in our mission of confirming UTMA as a new model university in Armenia.

For all these reasons, I strongly believe that you will find UTMA a promising and vibrant institution for education, research and innovation; UTMA is your right partner for developing academically and professionally. I am also looking forward to your continued trust and support for UTMA to make even stronger steps of development in the years to come

With warmest regards,  
Norik Sariberkyan
